EDITOR LEADER: The number of familiar and strange faces on our streets and in our hotels would indicate, without the aid of the war has produced an unusual number of candidates for places, or an inordinate demand for legislation, may be questionable.

Some little discussion has arisen on the question whether Judge Humphreyville, Pecsident pro tem of the last Senate, who is not a member of the new, should preside at the organization of that body on Monday next. There seems to be no preedent exactly meeting the case, or provision of law decisive on the subject. But Judge H. being a modest man, as well as in able and worthy man, it is now said will settle the question by withdrawing all claims to prerogative on the occasion. So that the new Senate will choose its own presiding officer for the first week of the

The prominent candidates for officers of the two Houses at the present time, seem to be in the Senate, E. T. Hall, an assistant clerk in the last House, for Clerk, and Wm. But there are other candidates for Clerk and Sergeant-at-Arms, and any number of applicants for assistants of both classes, in both Pouses. Of course the Speaker-ship of the lower House excites the chief interest among those not personally intersted, as well as with the candidates them, selves. Both Mr. Mr. Hitchcock and Col. Parrott have been Speaker of the House for portions of a session. Mr. Hitchcock will be supported generally by members from the Northern counties, and by many warm personal friends, who appreciate his the advantages over all others are dean qualifications, from all portions of the free from any smell of sulphur. The result in caucus between oue the two, is questionable. No irritation oh eed be anticipated, notwithstanding the miable exertions of the Copperboan press, and individuals of the same stripe, to pro duce such a result. ADJUTANT GENERAL'S REPORT.

The first of the Annual Reports to make oir appearance from the press this year, faithful Adjutant General of the State. His report of 196 pages, embraces many subjects of interest for present use, and permanent preservation. A brief recapitulation of some of its points, may be interesting. It commences, very naturally, with congratulation at the termination of the war, and a brief summary of the business and duties of his office during the
